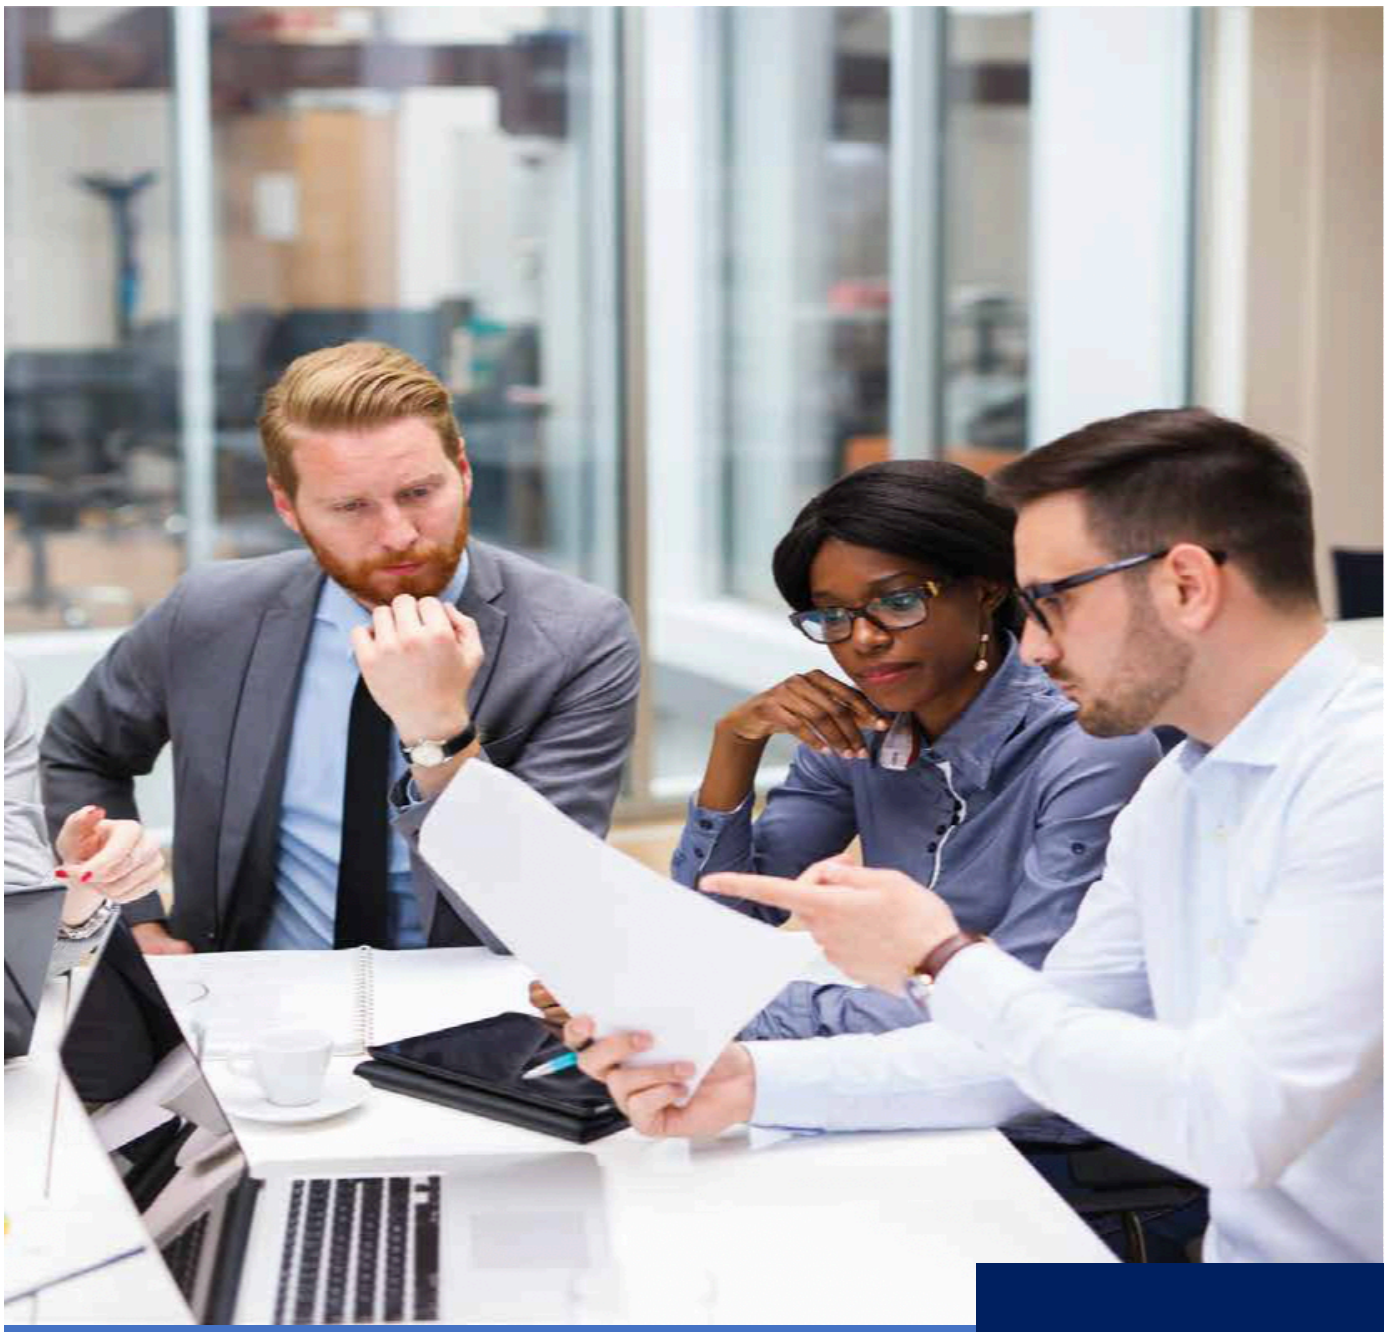
ZenSar



DevOps

Enabling Enterprises to deliver better, faster and predictable

Zensar is a leading digital solutions and technology services company that specialises in partnering with global organisations across industries on their Digital Transformation journey. A technology partner of choice, we are backed by a strong track record of innovation, credible investment in Digital solutions, and unwavering commitment to client success. Zensar's comprehensive range of digital and technology services and solutions enables its clients to achieve new thresholds of business performance.

Harvard Business School has captured the commencement of Zensar's Digital Transformation journey in a case study. London Business School has also published a case study titled "Zensar's Accelerated Digital Transformation Journey". It showcases our inside-out approach of digital enablement - a success story of how we became truly agile in reacting to changing trends and demands.

Zensar has an award winning DevOps Practise, with highly respected industry leaders amongst its ranks. We specialise in high touch Consulting, along with deep implementations across technology stacks. Along with tooling, we have certified Change Agents, who expertise in the Cultural change associated with a DevOps transformation.

"Continuous Everything" across ***legacy*** (Mainframe and Unix systems), ***traditional*** (Java, .Net, etc.), ***COTS*** (Oracle, SAP, Guidewire etc.), ***database*** and ***micro-services*** (Kubernetes, cloud native et al.) encompass today's complex Release Management puzzle. Zensar's tool neutral SI approach drives hyper automation, enabled by AI driven dashboards, with real-time Release dependencies across tech stacks.
